

COMMUNITY SURVEY

By drawing upon best practice models, the District has laid the foundation for providing relevant, innovative and challenging educational opportunities to students at all grade levels. The Board of Education and Administration have successfully addressed many facility needs within the regular operating budget. **WE NEED TO DO MORE...** we are dealing with aging schools, (average age = 105 years old), some with original windows, roofs, doors, and other infrastructure items that have reached the end of their life expectancy. In addition, space within the schools is limited, creating the need for additions and re-districting to maintain the ability for the facilities to support the educational process.

Concerns and input regarding our schools from your viewpoint, are important to us as we plan for the future of our students & facilities.

What's important to you?

Fill out the online survey today and lend your voice to the future of YOUR schools!
